Raphael Odeareduo

Alberta, Canada raphaelodeareduo19@gmail.com linkedin.com/in/raphael-odeareduo github.com/raphael-odeareduo19

https://portfolio-ralph19.netlify.app/

Frontend developer with a passion for problem-solving and making user interfaces come to life. Specializes in development and UI design using JavaScript, CSS, and other web technologies.

Projects

Tech Book Club
Feb 2024

https://tech-book-club-self.vercel.app/

- A landing page for a fictional tech book club, built with React and TailwindCSS, that demonstrates common layout patterns used to display content in websites across the internet.
- Explores fundamental CSS concepts such as Flexbox, colors, and more.

Photographer Portfolio Site
Feb 2024

https://photographer-portfolio-peach.vercel.app/

- A portfolio website for a freelance photographer, built with React and TailwindCSS, that helped to build trust with potential clients, land more gigs, and have a better online presence.

Love Notes
Feb 2024

https://love-notes-14.vercel.app/

- A simple web application built with React and TailwindCSS that enables users to create and customize messages that can be saved and sent to loved ones.
- Explores the concepts of state management, props, and forms in React.
- Explores the use of TailwindCSS classes.

Education

MacEwan University
Sept 2024 - Present

Bachelor of Science
Alberta, Canada

- Developed and written programs using the Python programming language to meet requirements provided by instructors
- Acquired theoretical knowledge of programming techniques and standards needed to increase my competency in the market
- Completed courses of varying difficulty and content to satisfy breadth requirements and have a wider scope of knowledge

Scrimba
Sept 2024 - Present

Student
Remote

- Solidified my programming knowledge by completing numerous coding challenges provided in the online courses
- Developed solo projects using frontend web technologies to practice what I learned through the platform
- Learned the fundamentals of User Interface Design using Figma and CSS to make visually appealing web apps and web pages

SmolJames Education
Dec 2024 - Present

Student
Remote

- Learned how to make use of frontend tools and technologies such as JavaScript, CSS, React, and TailwindCSS to create applications on the internet that solve problems
- Learned the fundamentals of version control, GitHub to collaborate with other developers and help create an efficient working environment
- Learned how to create a web portfolio using design and development tools to showcase my skills and abilities

Skills

Web	HTML, CSS, TailwindCSS
Design	Figma
JavaScript	ReactJS, JavaScript
Version Control	GitHub
